Dun & Bradstreet provides all full-time and part-time employees, scheduled to work 20 or more hours a week, Company-paid Life Insurance coverage of 1x your annual earnings¹, up to \$100,000.

You can add additional coverage for yourself and your family, including:

- Supplemental Life Insurance – covers up to 7x your annual earnings² or \$4 million, whichever is less
- Spouse or Domestic Partner Life Insurance – covers \$10,000 to \$150,000³
- Child Life Insurance (up to age 26) – covers \$10,000 per child

Please review the [plan document](#) for details.

¹For the year in which you were first hired, your annual earnings equal your current annual base salary. In subsequent years, your annual earnings will include current annual base salary plus bonus and commissions of the prior year.

²Imputed Income will apply for any coverage over \$50,000.

³Total spouse or domestic partner coverage may not exceed your total Company-paid and Supplemental Life Insurance coverage amount.

ADDING/DROPPING COVERAGE MIDYEAR

You may add coverage if you have a qualified life event or during Open Enrollment. You must report the life event to Fidelity within 31 days. You may request to drop coverage any time of the year. To make changes to your coverage, contact Fidelity at 1-877-362-8953.

In some cases, you or your dependents must provide Evidence of Insurability (EOI) when you enroll. Your coverage will not go into effect until EOI is approved by the Insurance Provider. Log on to [Fidelity NetBenefits](#) to see your rates.

IMPUTED INCOME

Employer-provided group term Life Insurance in excess of \$50,000 for employees is considered by the Internal Revenue Service (IRS) to be a benefit that is taxable as income. Section 79 of the Internal Revenue Code (IRC) requires employers to calculate taxable income for employees that receive more than \$50,000 in term life coverage and report it on the employee's paycheck.

Therefore, employees who have Company-Paid Life of more than \$50,000 must pay taxes for the "value" of the excess benefits. For example, an employee has \$75,000 of Company-Paid Life. D&B calculates the value of the benefit based on Section 79 Table 1 Rates. In this example, the excess coverage is \$25,000 (\$75,000 minus \$50,000). If this employee were 46-years-old, the imputed income would be \$1.88 per pay period.

EVIDENCE OF INSURABILITY (EOI)

Evidence of Insurability (EOI) is an application process in which you may have to provide information on the condition of your health or your dependent's health to the insurance carrier to be considered for coverage.

REDUCTION OF COVERAGE

Your Company-paid Life will be reduced to 65% of your coverage amount in effect on the day before your 65th birthday.

STD benefits are available when your disability results in your inability to work due to illness or accidental injury. The maximum length of STD benefits is 26 weeks. For more information on this benefit or how to submit a claim, please review the [policy located on The Hub](#).

LONG-TERM DISABILITY (LTD)

LTD picks up when your STD has run out. If you can't return to work after 180 days due to an illness or injury, LTD can provide continued income for you and your family.
